

S2131

Dream Paradise

S2131 Instruction manual

NOTICE OF ASSEMBLE

Tips for assembling

1. Because this product contains small parts, children need to use this product with an adult to avoid accidental ingestion and cause suffocation hazard. There are sharp objects in the product, be careful not to pierce people to avoid injury.
2. After all the materials are used in the required amount in the operation steps, put the remaining materials back into the original bag until the installation is completed. (Avoid losing materials during the installation process)
3. The unit of dimension marked in the step diagram is "cm".
4. Tips for making template paper: Put the template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the cloth or template from moving in the cutting process, or causing errors in the cut material. Or lead to insufficient materials.
5. According to the "Parts Rule Example" at the bottom of this page, refer to the parts on the part number drawing, find the actual product and compare it with the bill of materials, and then install it after confirming that it is correct. (Wooden parts only)
6. It is not advisable to apply too much glue, so as not to wait for a longer time to dry, and overflow will affect the effect of the finished product.
7. There are unavoidable small deviations in the color of wood, fabric, and beads of different batches, without notice, thanks for understanding.

Tips for Assembling Wood

Find the corresponding block number, use a knife in the connection point gently press, you can take out the wood.

Use a knife to smooth out the burr.

Or use sandpaper to smooth out the burr

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

DO NOT contact the LED wire end direct to the battery cell.

Use the provide battery holder. Make sue the correct polarity.

How to assemble the battery holder

1. Material and tools needed:
- Battery holder, LED bulb,
tape, screw driver and 2 pieces
AAA size battery(not provided)

2. Use screw driver and take the lid off from the battery holder.

3. Insert the battery take notes on the polarity.

4. Connect the red wire to grey wire, Connect the black wire to white wire.

5. Wrap the exposed wire with the tapes.

6. Place the box lid and fastness with screw driver.

Examples of parts rule:

A01: The parts are directly in the box; B01: The parts are in the B bag; C01: The parts are in the C bag, and so on (Note: The printing paper is displayed in the step A07-01: The printing paper is placed directly in the box, The part number is A07-01. In the step, the template paper A07-C01 is displayed. A07 is the template paper, D01 is the cutting template used for the corresponding material, D01-01, D01-02 are the part numbers for the parts, and the printing paper and template paper are directly placed in the packaging box.)

Spinning plane

Make 3 pieces according to the previous steps

Base of spinning plane

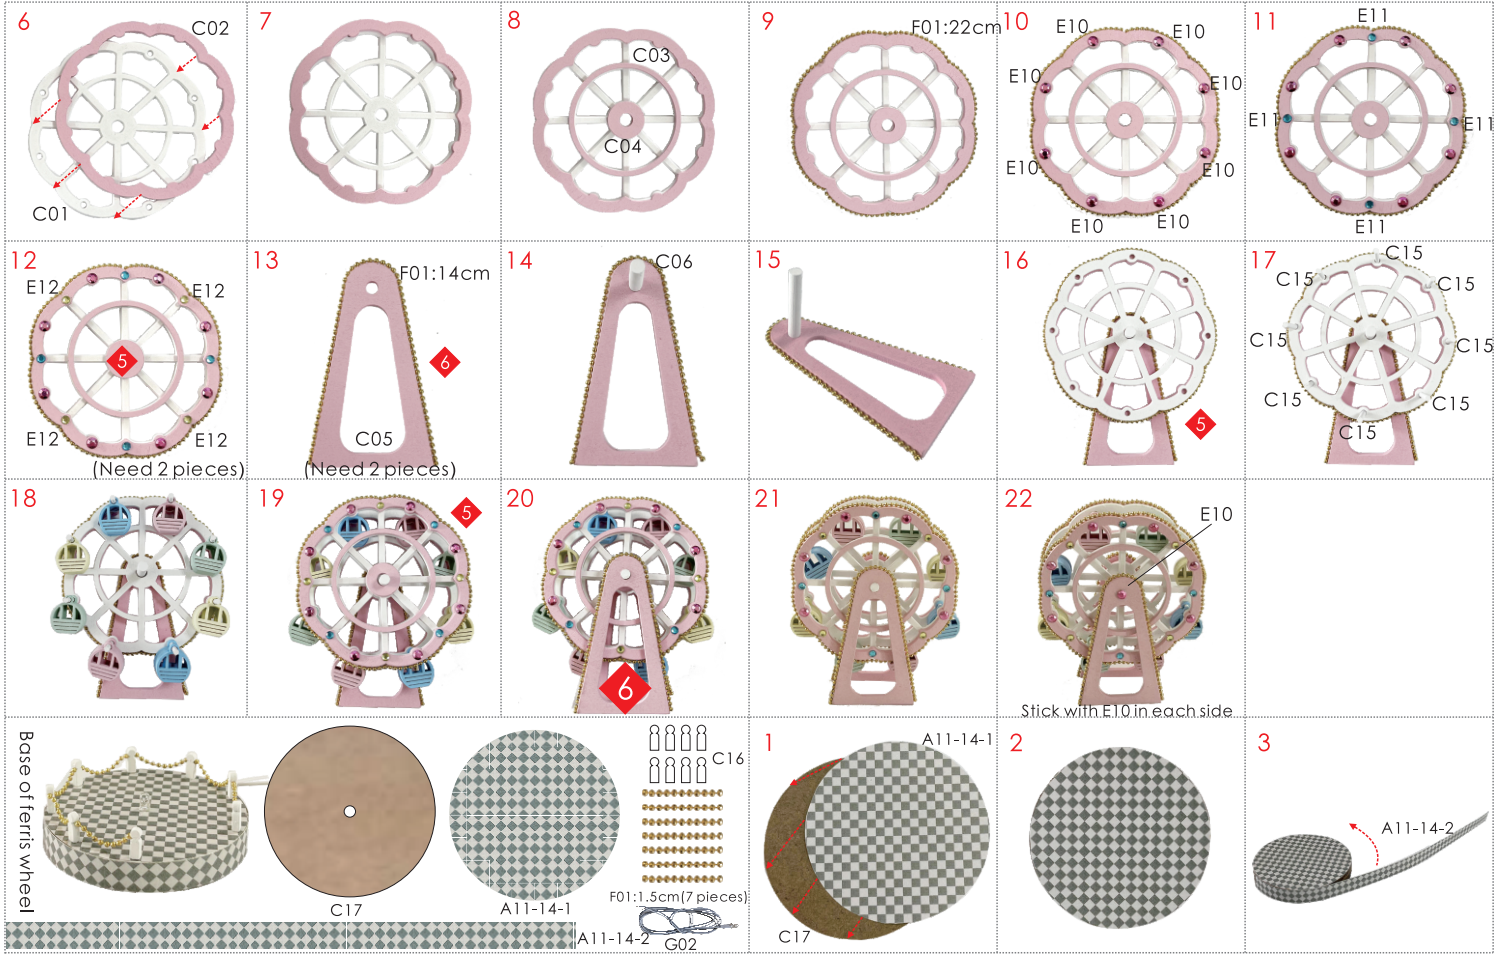

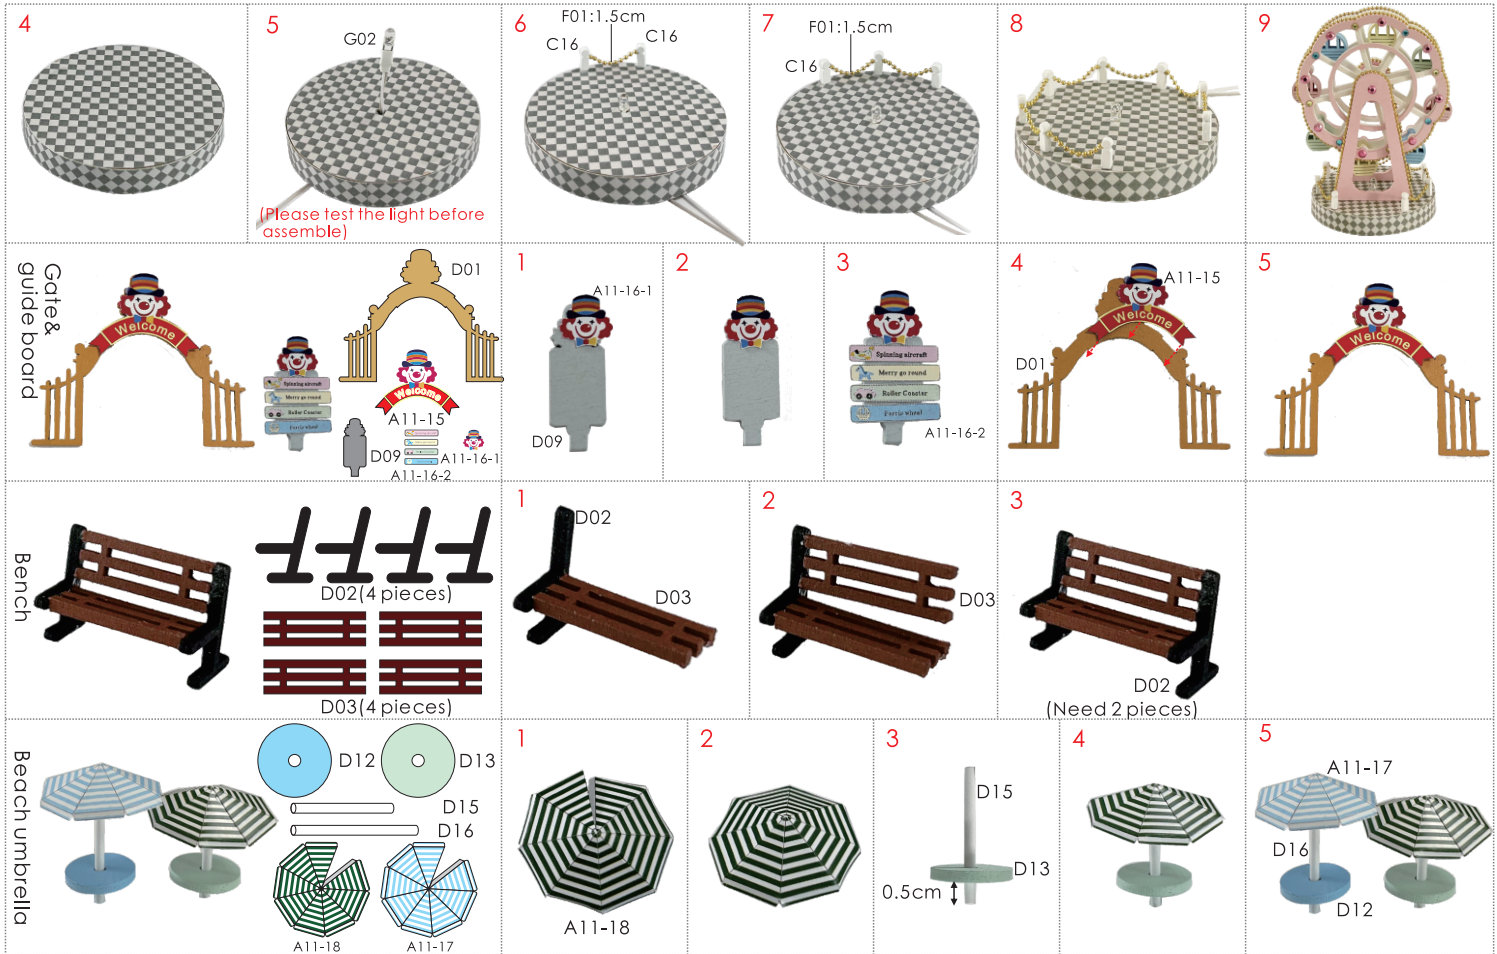

A11-13-2

Make 2 pieces according to the previous steps

Hobbyhorse

Streetlamp

Windmill

Ice cream van

How to assemble the battery holder

Statement: the lamp wires cannot be inserted into the output socket.

- Can use 2*AAA batteries
- Please notice the place of anode and cathode when put in the batteries
- Rechargeable batteries are not blunt electricity
- Rechargeable batteries can only be charged under adult supervision
- Rechargeable batteries should be removed from the toy before charging
- Different types of batteries cannot mix Do not mix new batteries in use with semi-used batteries.
- Run out of battery should be removed from the toy
- The power shall not be short circuit

Put the wire through the drawer of the battery box

Put the battery box in the drawer of the battery box

Installation of dust cover

dust cover
(Upgrade version accessories need to be purchased separately)

Ratio:1:10
Z01 plexiglass (transparent)
20*13*0.18(1piece)

Ratio:1:10
Z02 plexiglass (transparent)
14.5*12.64*0.18(2pieces)

Ratio:1:10
Z03 plexiglass (transparent)
20*14.5*0.18(2pieces)

stick Z02 and Z03 on Z01.

stick five pieces of plexiglass dust cover as shown

Ripped one side of kraft paper, leaving one side of kraft paper

Take out the plexiglass and tear off the kraft paper with text on each piece of plexiglass

The kraft paper that has been ripped off faces inwards, and the kraft paper that has not been ripped out faces outwards.

Use M03 to fix the junction of two pieces of plexiglass. (use transparent tape to replace M03)

The junction of every two pieces of plexiglass needs to be fixed with M03 (to prevent the plexiglass falling off)

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

The junction of two pieces of plexiglass needs to be fixed with M03 (to prevent the plexiglass falling off)

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

The junction of two pieces of plexiglass needs to be fixed with M03 (to prevent the plexiglass falling off)

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

the dust cover need to be glued 8 interfaces

Leave it for 1 hour. After the glue dries out, tear off a layer of kraft paper outside the plexiglass
